Responsive to the Official Action mailed January 30, 2002 ("Office Action"), please consider the following amendments and remarks.

In the Claims:

Please cancel claims 1-15. Please amend the claims as follows and add the following new claims:

16. (Twice Amended) A system for displaying a character, the system comprising:
a display having a region in which the character is to be displayed, the region having a particular number of pixels;
logic that renders a bit map corresponding to a vector representation of the character;
logic that causes the logic that renders to render a bit map having a number of bits, the number of bits greater than the particular number of pixels, wherein
various bits in a respective portion of the bit map correspond to a pixel; and
